

Message from Ted AveLllemant, President

In this email, I am excited to inform you about the smallest footprint, lowest power consumption, latest embedded Intel Atom Processor technology, and lowest cost POS line to debut at NRF's - Retail's Big Show in January.

By embedding the industrial strength Intel Atom Processor and motherboard into the keyboard or cashdrawer, we achieve new levels of portability, durability, small size, long life cycles, and low cost to retail transaction systems.

"I am so confident in the reliability of the new products and that we will lower Retailer's POS acquisition and maintenance costs, that I will personally deliver a loaner unit for free to any retail chain that wishes to evaluate my products." [Free Loaner for Retailers](#)

The New \$999.00 pcCashdrawer Bundle

By embedding the new architecture Intel® Atom™ processor with the pcCashdrawer components, a breakthrough level of price performance, small size and low operating cost is achieved in the POS industry. For the first time, a completely integrated POS system including processor, cash drawer and till, power and cables, keyboard with MSR and 10 keypad, Epson compatible printer, and flat panel LCD monitor, is ready to go for under \$1000.

- Intel® Atom™ embedded into the cashdrawer
- 1.6 GHz Processor with up to 2 Gigabyte RAM max
- 160 GB Hard Drive or Solid State Drive
- (4) USB ports, (2) COM, (2) LAN, (1) VGA standard
- POS keyboard with MSR, Programmable Keys, and 10 Keypad
- Epson compatible printer
- Flat Panel LCD monitor
- 3 year overnight replacement warranty

The New \$749.00 pcKeyboard

pcKeyboard® embeds the powerful and innovative Intel® Atom™ processor and

proven Cherry SPOS Point of Sale keyboard into a single, small size footprint, customer service transaction system. Built in USB and LAN ports connect the necessary credit authorization and receipt printing functions.

The new pcKeyboard eliminates the PC "box", reduces cables, and opens up customer service counter space. Retail, Healthcare, Rental Car, Airline check in, and Retail Banking will now have a way to streamline the customer transaction work space.

- Intel® Atom™ system and Cherry SPOS keyboard
- Credit Card Reader, Mouse Pad, and Programmable Keys
- 3 year overnight replacement warranty
- 1.6 GHz Processor with up to 2 Gigabyte RAM max.
- 160 GB Hard Drive or Solid State Drive
- (4) USB ports, (2) COM, (2) LAN, (1) VGA standard; (1) LPT available
- 14" width - 6" depth w/ custom cable cover
- 5v AC adapter

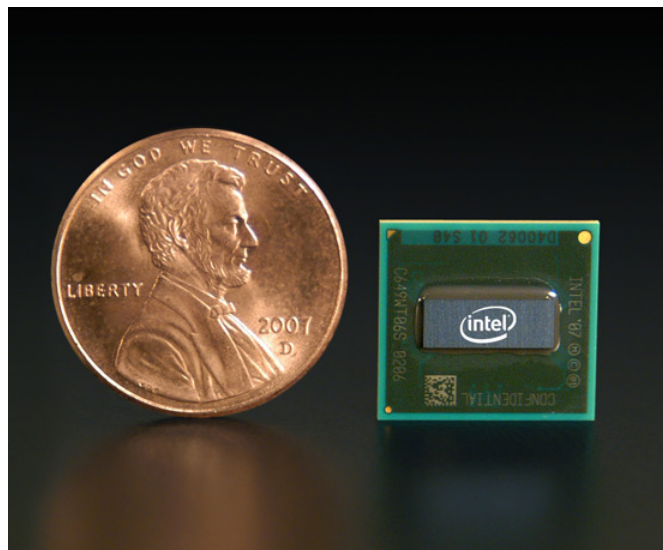

The Intel Atom Processor

The Intel Atom processor is the company's smallest built with the world's smallest and most energy-efficient transistors.

Intel's 30-year-old embedded computing division focuses on purposed optimized application devices that require both computing and Internet capabilities in a mobile and durable environment, but are not traditional PCs.

Intel offers an extended 7-year lifecycle for those areas that require longer product refresh cycles.

2010 NRF - Retail's Big Show
Jacob K. Javits Convention Center NYC
Jan 11 - 12, 2010

Please visit pcCashdrawer booth # 2817 for the debut of the new line of pcCashdrawer products.

The 2010 EXPO Hall will be an enormous 160,000 sq. ft. with more than 400 vendors! The floor will be a buzz with networking opportunities, idea exchange and dynamic products and solutions to help you compete in this economy.

Retailers, store designers and visual merchandising professionals can register for a FREE EXPO & STUdiO Pass.. [Click for Retailers Free Expo](#)
