AVE INVESTMENTS, Inc announces a pcCashdrawer® bundle that integrates the POS CPU/cashdrawer, peripherals, cables, and operating environment in a ready to go package for \$1,999 list price.

Osage, Missouri (February 1, 2008). The pcCashdrawer® represents a new level of innovation by combining an industrial grade CPU into the cash drawer. Its low voltage, fanless, system combined with shock mounted hard drive sets a new standard for packaging, reliability, and value. It's value is further validated by its three year warranty.

The innovation in packaging is now expanded to include an entire Point of Sale bundle to deliver a complete system that is tailored and tested to optimize performance. The 1 Gig CPU/cashdrawer comes with Microsoft XP, and custom cables are made to integrate and connect the Citizen 310 Printer, TG3 POS keyboard with MSR, and pcMonitor 14.1 inch monitor. Power supplies are cleverly hidden and one power cord extends out the back.

The a pcCashdrawer® bundle lists at \$1,999 including Integration, Software Load and 3 year warranty represents a new level of value, engineering, performance and packaging. And it all comes with good looks! Contact www.pccashdrawer.com or call 480 452 9184.
