

pcCashdrawer® combines the POS cash drawer and the low power consumption, durable and long life Intel® Atom™ processor, Hard Drive, LAN and peripheral connectors inside the cash drawer chassis. Wires and power bricks are hidden inside the chassis. Media slot and keylock provide tighter security.

**AVE INVESTMENTS, INC. announces the new pcCashdrawer®; the worlds first combined POS cash drawer and Intel® Atom™ processor, Hard Drive, LAN and peripheral connectors built inside the unit for \$749.00. Engineering efficiency lower costs and improves reliability.**

**The new pcCashdrawer comes with a 3 year warranty.**

OSAGE BEACH, Mo. Business Wire AVE INVESTMENTS, INC proudly announces pcCashdrawer®. By combining the custom POS cash drawer with the fanless, low power consumption Intel® Atom™ processor, motherboard, hard drive, LAN and peripheral connectors, the new pcCashdrawer frees up valuable space for retail check out. The custom steel POS cash drawer chassis houses the computer, the connectors, the till, the wires and power bricks for peripherals, and provides a base for the keyboard, printer, and monitor.

“The major POS vendors continue to build a separate POS system box and either mount it under the counter or stack it together with the other POS components.” states Ted AveLllemant, President of AVE INVESTMENTS, INC. He further explains, “The size of these POS stacks and the resulting wires are not visually appealing and create failure points. Furthermore, with the miniature size, low voltage, special purpose Atom processor, we can streamline the product, lower costs, and improve reliability.”

The pcCashdrawer is engineered for serviceability. If either the POS CPU or the Cash Drawer assembly needs service, the computer and cash drawer can simply be separated and removed from the unit without any tools. Three year overnight replacement warranty means retailers are back in operation the next day.

The \$749.00 pcCashdrawer ® includes:

- Intel® Atom™ system and custom steel cash drawer chassis
- 1.6 GHz Processor with up to 2 Gigabyte RAM max.
- 160 GB Hard Drive or Solid State Drive
- (4) USB ports, (2) COM, (2) LAN, (1) VGA standard, (1) LPT available

- 17” width – 20” depth
- 5v AC adapter
- Till with Media Slot and Keylock
- 3 year overnight replacement warranty
